Review Packet

This review packet is to be completed by students who are enrolled in Modern Geometry, The completed packet is to be submitted to the teacher on the Monday of the first full week of class. The material in this packet will be used in the first assessment administered by the teacher.

Algebra Review Packet

The problems in this packet are intended to review what you should already know from an Algebra I Course. The skills selected are those that we will be using in the study of Honors Modern Geometry. If you get stuck on any question you can ask another mathematics teacher for assistance or research the information on the Internet. This background information will appear at various times throughout this course and you will be expected to know it.
